BANKRUPTCY LITIGATION

Our Bankruptcy & Creditors' Rights Group develops results-driven strategies to assist clients in all aspects of debtor-creditor and insolvency matters. We work with and for creditors, debtors, investors, trustees, committees and other litigants in debtor-creditor related disputes and bankruptcy cases, in state and federal courts. Our attorneys have extensive litigation and negotiation experience and include recognized leaders in these fields.

We apply our years of experience to aggressively seek rapid, effective and cost-efficient outcomes on behalf of our clients. These include business reorganizations and liquidations, avoidance litigation, lender liability matters and a variety of creditor-related litigation.

Through diligence, hard work and creativity, we seek the best possible solutions for complex disputes, while being aware of settlement opportunities throughout the process. Our clients appreciate the value and cost savings of avoiding litigation when alternative resolutions are effective, practical and feasible.
