# GENERAL CORPORATE ADVICE

Our Corporate & Tax Group serves as outside corporate counsel to clients in a broad range of business and legal issues.

Many corporate clients seek our attorneys' advice for key agreements governing employment, non-compete, confidentiality, supply, manufacturing, and equity-based compensation arrangements. We often represent clients in dealings with lenders and other financing sources.

Our attorneys also serve as a first point-of-contact in the event that our clients encounter a significant business dispute, working with them to engage litigation counsel and helping to resolve these matters. For many private and smaller public companies, we act as outside general counsel, furnishing advice on a daily basis and coordinating their legal needs, all to help them achieve key business objectives.
