PROFESSIONAL LIABILITY

Malpractice claims against attorneys and accountants are an increasingly common feature in our society. Hill Ward Henderson is widely regarded as one of the premier firms in defending against these types of claims.

Our success in assisting clients in defending against professional liability claims stems from the firm's familiarity with the substantive issues faced by law firms and accounting firms. We approach cases from a team perspective, bringing together attorneys from different substantive areas to work together for the benefit of the firm's clients.

The firm has represented law firms and accounting firms from Florida and throughout the United States in a wide range of professional malpractice cases, including securities and shareholder actions, contract disputes and other related matters. Our highly experienced attorneys are frequently selected to speak at national conferences and seminars on the subject of attorney malpractice liability.
